Investment Objective & Strategy

From investment's prospectus

The investment seeks long-term capital appreciation.

The fund invests primarily in equity securities of U.S. companies whose market capitalizations are \$3 billion or more, measured at the time of purchase. Equity securities in which the fund may invest include common and preferred stocks, rights and warrants, and securities convertible into equity securities. It may also invest in the securities of other investment companies including exchange-traded funds ("ETFs").

Benchmark Description: Russell 1000 Value TR USD

The index measures the performance of the large-cap value segment of the US equity securities. It includes the Russell 1000 index companies with lower price-to-book ratios and lower expected growth values. It is market-capitalization weighted. Russell Investment Group is the source and owner of the trademarks, service marks and copyrights related to the Russell Indexes. Russell® is a trademark of Russell Investment Group.

Category Description: Large Value

Large-value portfolios invest primarily in big U.S. companies that are less expensive or growing more slowly than other large-cap stocks. Stocks in the top 70% of the capitalization of the U.S. equity market are defined as large cap. Value is defined based on low valuations (low price ratios and high dividend yields) and slow growth (low growth rates for earnings, sales, book value, and cash flow).
